

Violet Fish

**SUM
MER
2016**

Here at Violet Fish we are all inspired by the amazing Frida Kahlo. Her beautiful artwork shows an uncompromising depiction of the female experience and form. In a time of conformity she was totally herself. That's what we want to be and we want you to be the same; Yourself.

This Summer our range is a mix of interesting colours and prints. Interesting but still subtle enough to not take over your whole self.

Our clever prints designer has given us a beautiful tribal inspired denim print this season, which we absolutely love! There is also a divine feather print, geometric pattern, and our exclusive vintage sunflower print in muted yellows, greens and browns. Alongside this we have some subtle spots and mini tribals that complement the stronger ones.

The palette is soft and natural. Mahogany Rose, honey, sage, wild dove and black.

Fit is always a priority here at VF, so you can be assured that all the clothes are flattering and will enhance your own natural beauty.

We are very happy with this feminine, flattering and totally individual range. You will not see these styles anywhere else as they are all designed by our hardworking team here in Australia.

Enjoy and celebrate your own individuality!
Jill and Elle xx
