

FALCON STAINLESS INC.

Where Quality Flows In Your Direction

Falcon Stainless, Inc. has been an operating business in the State of California since 1981. Under the current family ownership and guidance of Gray Pender since 1990, incorporated in 1999, Falcon was responsible for introducing Corrugated Stainless Steel water and gas connectors to the US Market. Having made substantial improvements to the product and increasing the number of models since becoming President and then CEO, the company has experienced unprecedented growth over the past 20+ years. The reasons for this are: deep industry relationships, constant design improvements, state of the art manufacturing in our own facility and dedication. We have set Falcon on the high road to generating exceptional products and providing exceptional service for all of our customers.

Using only the highest quality raw materials, educated engineering staff, strict quality control have helped Falcon create more flexibility, increased flow and tensile strength in all Falcon products. All of this product advancement happens while expanding our client base in multiple market arenas. These market arenas include highly respected OEM's, Plumbing Wholesalers and Water Treatment Distributors, Water Treatment Dealers, as well as Contractors/Installers throughout all of North America, Europe, Australia and Asia.

Ever aware of our customer's needs, Falcon has become the "go-to" recognized leader in manufacturing proprietary connectors for the top water treatment and water heating companies in North America. By fulfilling our customer's specific technical requirements, Falcon steps up to fill the niche created by a highly sophisticated and demanding marketplace.

We are fortunate to occupy this distinguished position! We thank the industry for your support and loyalty. Our sole purpose is to provide the finest corrugated stainless steel water and gas connectors along with respectful exemplary customer focus and care.

Note: When using 0.2 water column pressure drop, capacity can be determined by multiplying the values above by 0.632 (for both natural and propane gas). For capacities at other than noted, contact Falcon Stainless Inc. at 1-800-814-8444

All Falcon gas connectors (coated and uncoated) are compliant to the following Codes and Standards:

Complies with the Following Standards:

- ANSI Z21.24/CSA 6.10-2006, Connectors for Gas Appliances
- ANSI Z21.24a/CSA 6.10a-2009, Addenda A - Connectors for Gas Appliances
- ANSI Z21.75/CSA 6.27-2006, Outdoor Gas Appliances/Mfd Homes
- ANSI Z21.75a/CSA 6.27a-2009, Addenda A - Outdoor Gas Appliances/Mfd Homes

Complies with the Following Codes:

- 2012 and 2009 International Plumbing Code® (IFGC)
- 2012 and 2009 International Residential Code® (IRC)
- 2012 and 2009 Uniform Plumbing Code® (UPC)
