1. Introduction ---

Congratulations on your purchase of Paww WaveSound 2; one of the most advanced headphones systems on the market. Paww WaveSound 2 has been engineered to provide you with years of enjoyment and comfort. Experience music without compromise. Experience Paww WaveSound 2.

2. Battery Precautions ---

The Paww WaveSound 2 can be powered by a built-in rechargeable lithium-ion battery. Please charge the battery for at least 8 hours before first use.

- If the device has not been used for an extended period of time, the battery may be drained of power and require recharging.
- Rechargeable batteries should only to be charged under adult supervision.
- Only use the supplied micro-USB cable to recharge the battery. Improper charging may damage the battery and the device.
- Do not attempt to open the rechargeable battery or battery pack. There are no serviceable parts inside.
- Keep the battery out of reach of children. If swallowed, consult a physician immediately.
- Avoid storing the battery in extremely hot or cold environments. A device with a hot or cold battery may not work temporarily, even when the battery is fully charged.
- Do not dispose of the batteries in a fire as they may explode. Batteries may also explode if damaged. Please dispose of them according to local regulation. Do not dispose of batteries as household waste.

3. Getting Started

4. Cable Connection

5. Bluetooth Connection

The Paww WaveSound 2 headphone system can be paired with most Bluetooth enabled devices with the range of 20 meters (65.6 feet)

1. Activate pairing mode on the Paww WaveSound 2 by turning the switch to "BT" mode. The LED will flash blue in color.
2. On your Bluetooth enabled device, navigate to the settings menu, and select the Bluetooth option.
3. Select "Search" or "Discover" devices.
4. Select "WAVESOUND 2".
5. If requested, type the password or PIN as 0000
6. Press the Enter key to complete setup.

After completing the steps above, a message on your Bluetooth enabled device will appear confirming that the pairing process was successful. In case the pairing is unsuccessful, please restart the Paww WaveSound 2 and try again. If the Bluetooth on your smart device remains open, when you restart the headphone, the Bluetooth will be connected automatically.

6. NFC Connection

NFC or (Near Field Communication), is a set of standard for wireless devices to establish radio communication between compatible devices by touching them together or bringing them into close proximity to each other.

Please activate the NFC function of your NFC enabled Bluetooth device and put the device close to the Paww WaveSound 2. Your device will ask you if you want to pair the two device, choose Yes or OK to complete the pairing process.

10. Product care

This device is designed to be light, compact and durable. As an electronic device it must be treated carefully. Putting unnecessary pressure on it or striking the device against other objects may cause damage. To avoid damage to your device, please:

- Do not drop, crush, bend or apply excessive force to the device.
- Do not expose your device to moisture, extreme or prolonged heat, cold, humidity, or other adverse conditions. Avoid storing it in damp, humid or wet places, as it is not waterproof.
- Clean the unit with a soft cloth or damp chamois leather. Never use solvents.
- The unit can only be opened by qualified personnel.
- This unit contains magnets. Keep magnetic field sensitive products such as credit cards and video screen away from this device to avoid damage or malfunction.
