DOG CANCER VET SEMINAR SERIES

[Need to get this seminar? Find it on our publication store.](#)

*Below are the timestamps for each section of this webinar. Please feel free to print this document so you can take notes as you listen.*

**01:12 Dr. Demian Dressler:**

The history of dogs and why we need to be cautious when choosing supplements for our dog's with cancer.

**06:02 Dr. Demian Dressler:**

Things to look for and take into consideration when choosing supplements—ingredients lists, bioavailability, quality, safety and third party testing.

**17:48 Dr. Demian Dressler:**

What is a certificate of analysis and how to obtain one from a supplement company, and the interaction between supplements and conventional treatments.

**22:20 Dr. Demian Dressler:**

Supplements with too little information or conflicting evidence—green tea, melatonin, IP6, berry extracts, pycnogenid, grape seed extract, algae supplements, resveratrol, lycopene, and lutein.

**35:17 Dr. Demian Dressler:**

Answers reader's question on treatment options, life expectancy and life quality.

**44:17 Dr. Demian Dressler:**

A good vitamin supplement (Vaxa), and the general effects of adding something new to your dog's diet—supplements, and food.

**49:55 Dr. Demian Dressler:**

Answers reader's questions on Apocaps and immune supplements.

**53:05 Dr. Demian Dressler:**

Common supplements that are rarely standardized—cat's claw.

**58:38 Dr. Demian Dressler:**

Answers reader's question on the Dog Cancer Diet and carbohydrates.

**61:22 Dr. Demian Dressler:**

Melatonin and depression, calcium supplements, grapefruit, bone meal, fluoride, vitamin D, fatty acids and heavy metals, and digestive enzymes.

**80:48 Dr. Demian Dressler:**

Supplements that have blood thinning effects and their effects on conventional treatments and other medications.
