DR. DEMIAN DRESSLER, DVM
DOG CANCER VET SEMINAR SERIES

[If you don't have this seminar yet you can download it from our Publication Store.](#)

Below are the timestamps for each section of this webinar. Please feel free to print this document so you can take notes as you listen.

00:19 Dr. Demian Dressler:

Cancer spread and its importance in Full Spectrum Cancer Care. Dr. Dressler discusses lack of early stage cancer testing and screening, cancer markers, central cancer locations, the appearance of cancer spread, and strategies that we use in trying to slow the spread of cancer.

12:27 Dr. Demian Dressler:

How to handle your emotions, understanding what test results (blood, biopsy, x-ray, MRI, CT) mean for your dog and the cancer's spread rate, and their effect on treatment plan options.

21:22 Dr. Demian Dressler:

Answers reader's question on whether she is providing enough supplemental support for her dog with Osteosarcoma, whether her dog should undergo amputation, and the various stages within treatment plan analysis.

31:46 Dr. Demian Dressler:

Answers reader's questions on Osteosarcoma, supplements, the side-effects of radiation, both short-term and long-term, life quality, and other treatment plan options.

53:28 Dr. Demian Dressler:

Answers reader's question on diet, elevated liver levels, tests, and what could be the cause of the elevated liver values.

60:06 Dr. Demian Dressler:

Answers reader's question on Mast Cell Tumors, inflammation, surgery, and nutraceuticals. (Please note that Apocaps is available and can be shipped to Canada. Please order Apocaps CXE, the "e" is for export, if residing in Canada).

64:25 Dr. Demian Dressler:

Overview on how to assess cancer spread, treatment options, managing your emotions, and understanding life expectancy and gained life expectancy.
