

The background is a close-up of a wooden surface, likely a door or wall, featuring a prominent X-shaped cross made of four wooden planks. The wood has a warm, light brown tone with visible grain patterns and several knots. The lighting is soft, highlighting the texture of the wood.

INTERIOR

DOOR GUIDE

GLOBALPOINTE
BRINGING THE WORLD TO YOUR DOOR

CRAFTSMANSHIP & ECONOMY,

YOU CAN HAVE BOTH

That craftsmanship is a result of close attention to detail; first with our product creation, and secondarily with our supply chain. The outcome of which is simply a smarter way to make doors. You need the highest quality, and the most extensive selection of products to meet the market's ever-changing needs. GlobalPointe strives to be the partner that delivers on both fronts. Our guarantee, the only thing stronger than our product line is our commitment to you.

GLOBALPOINTE
CUSTOM

Sketch out what you want, and we make it happen. See Page 34.

TEN

YEARS OF QUALITY

We've built our reputation on personal service that delivers solutions with every sale and peace of mind with every product. The GlobalPointe team offers hundreds of years of combined experience in the millwork industry. We understand that you expect superior quality, outstanding appearance, and exceptional value. You can rely on GlobalPointe to deliver on all counts.

Genoa City, Wisconsin

Our 100,000 square foot warehouse in Genoa City, WI enables quicker lead times, a full line of products to choose from, and ample on-hand inventory.

HOOK AND EYE

MAKE IT A BYPASS

Bypass Hardware is an add-on to any Barn Door Hardware, allowing doors to slide in front of and in back of each other. It is ideal for closets or walls with multiple openings because it saves space.

ADD-A- DOOR KIT

Consider two door kits for double door applications spanning wide doorways.

SOFT CLOSE

Mounts discretely on the back of track for soft-closing functionality.

HARDWARE FINISHES

PRIMED

Ready to paint, whatever color you can envision.
Perfect for new construction and renovations.

REFINEMENT **R**

Custom moulding for those with discerning tastes. Retrofit any style of trim millwork without the hassle. Add moulding to any shaker style door with a Refinement icon. Learn more on page 6.

EASY-**P**REP

Make your GlobalPointe primed doors match any trim style with minimal pre-finishing and minimal coats of paint. Customize with your color choice. GlobalPointe primed doors are delivered primed white, but they don't have to stay that way.
