## Show Me the Color Palettes!

Inspired by my best-selling seashell photograph, "Paradise", this refreshing coastal color scheme will transport you to your own calming, caribbean oasis. Surround yourself with the relaxing vibe of a vacation by the sea... swimming in crystal clear blue water, the sensation of warm sand under your toes and the sound of shore birds slowly flying overhead.

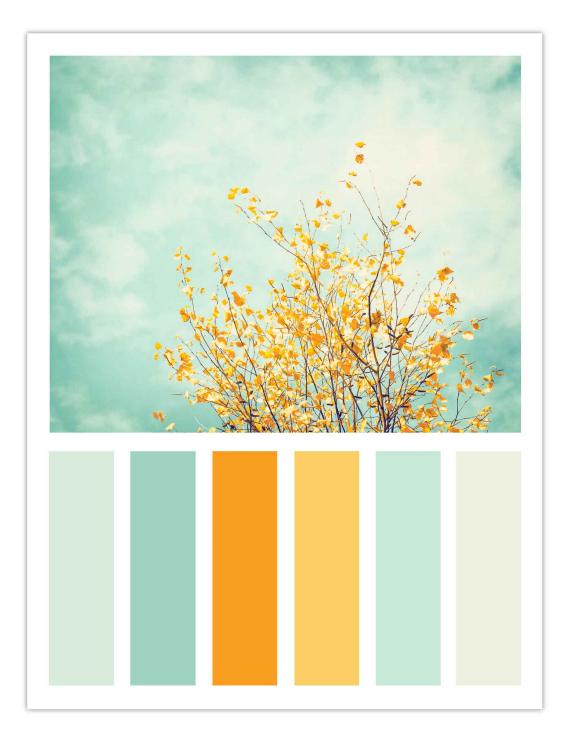

Spread the aqua blue accent color around your space in throw pillows, art, rugs, curtains and other coastal-themed decor or go bold with aqua on the walls accented by sandy-beach inspired neutrals.

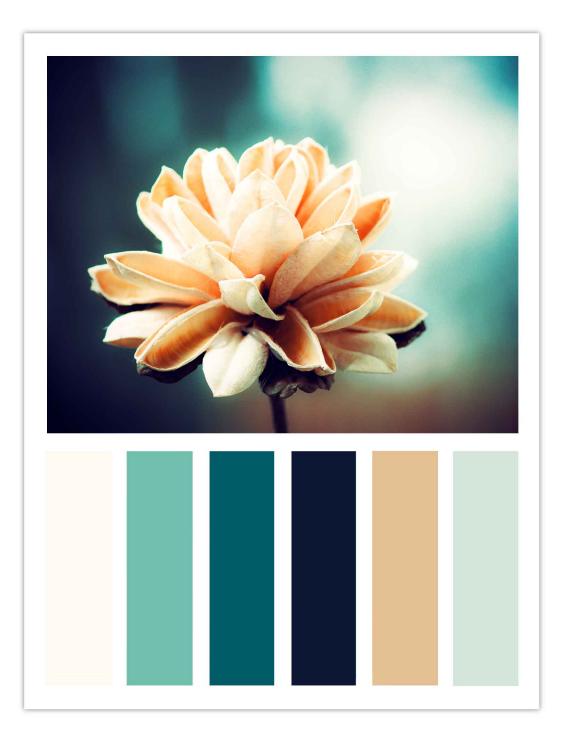

Oh mint, how I love you. One of my favorite color combinations to create with is mint, golden yellow and a touch of orange. Inspired by my best-selling nature print of all time, "Gentle Whisper," this dreamy color scheme is the perfect choice for mint-lovers everywhere. The calming, vintage tones make me want to lie back and daydream of happy times long gone. I envision these pretty pastel hues in a light, airy cottage with a timeless look and feel. Light mint walls, pretty white curtains blown by the summer breeze, distressed white furniture and pops of golden-yellow accessories spread here and there will bring this dreamy palette to life.

Ooo...dark teal. Teal is one of my favorite colors and when it goes toward the dark side, it's even more beautiful to me. This moody, rich color palette is inspired by my popular nature print, "Timeless." A touch of navy mixed with rich teal tones contrasted by a touch of creamy-warm goodness are sure to create a dramatic, modern vibe in any interior. If you're looking for a chic, high-drama color palette for your space, look no further. I envision a rich, dark accent wall in teal, contrasting white or cream frames with art in warm, brown-ish tones as well as lighter shades of teal. If you're a fan of lighter walls, go for a creamy neutral or even a trendy "greige". Spread the rich teal tones around the room with rugs, art, curtains, blankets and any other moody teal decor that speaks to you.

This pale blue coastal color palette is inspired by my best-selling beach grass photograph, "A Child of the Summer Breeze." Calming periwinkle-blue tones mixed with light neutrals will bring your space a peaceful beach vibe that is sure to lower your stress. Surround yourself with this tranquil color palette and reminisce of relaxing times spent by the ocean... the soothing sounds of gentle waves breaking onto shore, the warm sun on your skin and beach grass softly moving back and forth in a light sea breeze. If my dream of a beach house ever becomes a reality, this calming color scheme might be all the inspiration I need for the decor.

Based on my best-selling pink floral photograph, "Bloom," this pretty-in-pink color palette has an air of modern feminity. Soft, delicate pinks and creamy neutrals with just a hint of yellow understones create an elegant feel. This dainty color scheme is sure to nuture your soul and boost the vibe of unconditional love in any space. Perfect for a baby girl's nursery, little girl's room or for anyone who enjoys the softer, more feminine side of life.

This palette works beautifully in a cottage-style home with a flair toward shabby chic design. Play up the various shades of pink with freshly cut flowers, floral pillows, art, curtains and any other feminine decor that helps express your inner girly-side.
