

TANGLES'N KNOTS

DOUBLE BOLLYWOOD KNOT

Although this knot looks complicated it really isn't once you get the hang of it. It is very similar to the regular Macrame Square Knot with a couple of extra steps added to link the cords in the middle.

We have taken out the beads for this tutorial and increased the size of the cord to 1.4mm to make it easier to see the steps.

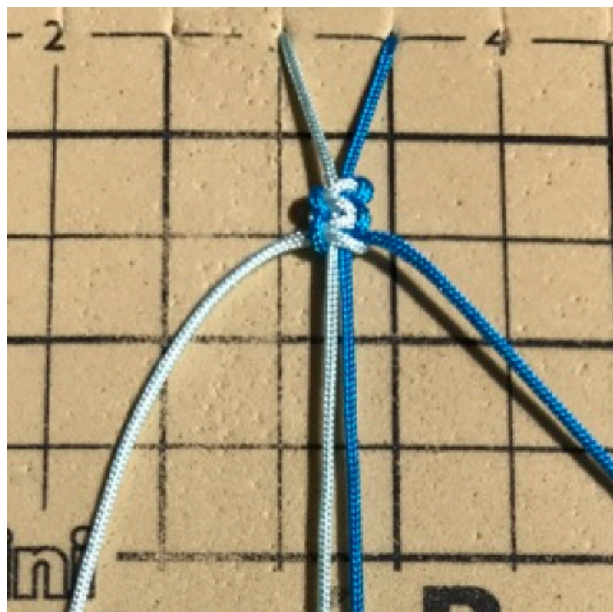

The cord on the left is called Misty Waterfall and the cord on the right Bright Turquoise.
