About Us

The story of ChocoCraft began in 2013. We realised that printed chocolates could be an innovative tool to represent corporate brands. These chocolates combined with elegant packaging make gifts that make a great impression.

Today we can proudly say that our work has been recognised by companies like Facebook, Audi, Apple, Tata group companies, Mahindra & Mahindra & Aditya Birla among others. All processes are in-house providing us great control over quality & timelines. We deliver to locations across India.

Why ChocoCraft?

Product Quality

- International Standard raw material for making Chocolates
- Colors used for printing on Chocolates are USFDA approved
- Elegant and sturdy wooden boxes

Services

- A dedicated account manager for you.
- Completely customized product crafted to your liking.

Delivery

- We deliver across India. In case of multi-city deliveries, just give us the allocation.
- Out-stationed deliveries are carefully packed. No damage guaranteed
- We deliver on time, every time. No shipment delayed till date.

- 1. What is the shelf life of the chocolates?** - We recommend that the chocolates be consumed within 3 months. Each batch of chocolates is made fresh against an order.
- 2. Is the printing done on the chocolates safe to eat?** - The colors used for printing on the chocolates are USFDA approved. We procure the best ingredients used to print on chocolates and they conform to international standards.
- 3. Are the chocolates vegetarian?** - Yes.
- 4. How are the chocolates packed?** - The chocolate boxes are packed properly in insulated Thermocol box. In warm temperatures, we add cooling gel packs in the box.
- 5. What is the best way to store chocolates?** - Chocolates should be stored in a dry and hygienic place in temperatures less than 25 degrees celsius. In winter they can be safely kept indoors. During summer it is better to keep them in an air-conditioned room. They do not require refrigeration. Refrigeration may sometimes cause problems. As soon as the chocolates are taken out of the refrigerator a film of moisture develops on the them because of condensation. Avoid direct sunlight in all seasons!
