

MS705

CONSTRUCTION PRO

Applications:

Premium solid 3-stage skid steer tire for the most severe OTR and construction applications.

- 3-stage, all rubber compound construction combines ultimate tread cut resistance with a comfortable ride
- Available in smooth or traction tread designs with or without apertures for maximum versatility
- Zero maintenance and downtime with deep tread for extended life vs. pneumatic tires
- Aperture (AP) Sidewall configuration designed to improve operator comfort
- Self-cleaning R4 tread design for maximum traction
