

SIZE GUIDE | RINGS

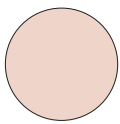

HOW TO PRINT THIS CHART

The ring size guide must be printed on a full letter (8 1/2 x 11 inches) size page. To make sure the ring size guide has been printed properly, take a ruler and measure one of the samples below. It should be exactly 2 cm or 2 inches.

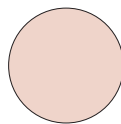

HOW TO USE THE RING CHART

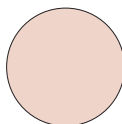

Take a ring that perfectly fits the finger on which you will wear the ring. Place the ring over the circle on the ring chart that is closest in size. If your ring is in between two sizes we always recommend choosing the larger size.
