Diamond

Aesthetic, trendy yet practical defines the **Diamond** Visitor office seating collection. **Diamond** Visitor is a stackable chair that suits all applications.

Every user will be impressed with the comfort **Diamond** Visitor provides. The seat and back are moulded in well proportioned dimensions with comfortable ergonomics.

Diamond Visitor ergonomic seat & backrest, made of highly flexible high-elastic polypropylene, gives users the freedom of movement and natural seating posture.

The polypropylene armrests extend from the backrest stream forwards along a curve and fit flush with the seat tube producing a feeling of elegance.

Delivered assembled.
