

NANCY NELSON

## Our Story

Nancy Nelson Jewelry is a jewelry brand with a mission to connect women to nature through jewelry that is timelessly elegant, bohemian and rooted in love. In every Nancy Nelson piece, we strive to capture and celebrate the natural beauty that surrounds us. Our process combines century old techniques like lost wax casting, hand beading, and wire wrapping to create a modern bohemian style with an emphasis on quality and sustainability. Our pieces are created to make you feel empowered, inspired, renewed, grounded and beautiful.

I've been an artist my entire life, and the change of seasons never ceases to spark new ideas and more creative energy. Nature is fuel for my designs, and its energy guides every stone I select, and every leaf I cast. The items I use in my collections are often gathered on walks with my children, and I present them with the care and curiosity I find in their natural beauty. My intention is that each piece of jewelry tells a story to the wearer and evoke a sense of love and wonder.

**Natures Cuff**
