Linx Vapor Announces Exclusive Collaboration With The Game

Press Release

For Immediate Release

Los Angeles, CA | (Tentative Date Inserted Here) Linx Vapor has partnered with The Game to help produce and promote the highest quality portable vaporizers devices in the World. Additionally, Linx will offer exclusive and limited-edition Trees by Game branded vaporizers and merchandise.

The partnership will give fans exclusive access to product giveaways, signed merchandise and a behind the scenes look into The Game's first hand thoughts when it comes to cannabis, the benefits of vaporization, and where Game sees LINX playing a pivotal role in delivering medical grade quality to consumers that need a safe and consistent platform for medication and enjoyment.

All future promotions will be advertised via both The Game's and Linx Vapor's social media channels (Facebook, Instagram, Twitter) as well as exclusive e-newsletter promotions.

To help facilitate the launch of the Linx Vapor's collaboration with The Game, we would like to offer media outlets direct access to The Game via phone interviews (As well as possible in person interviews when possible.)

To schedule an interview with The Game regarding the launch of the Linx Vapor campaign, please refer to the listed contact information provided.

About Linx Vapor:

We are a California based vaporizer company with a goal to push the boundaries of design and user experience. Linx vaporizers are designed for vape connoisseurs that can appreciate the subtle nuances in terpene profiles. All of our high-quality products have been awarded by *High Times Magazine*. We maintain a focus on health on health centric vaporizers that are portable and discreet

Our expertly crafted products stand second to none in the vaporizer industry. Innovation has been Linx's primary goal from its inception three years ago, boasting revolutionary designs such as:

- The first ceramic plate atomizer in the Hypnos Zero
- First to use glass mouth pieces on all devices
- First to produce no paint, plastic or fiber products
- Implemented the first quartz chamber convection oven
- First to use four different temperature settings in a wax vaporizer
- All products designed in house in California
- First company to use air insulation rather than silica air gel

Taste the difference with Linx Vapor!
