

Revision History List: (English only)

Date: 02/02-2018 Firmware Revision: V2.7

Changes from Firmware Revision V2.1:

- Changed the factory default DVB-C search parameters for country Denmark only.
- Fixed a bug where P/F info would not show correctly when zapping between TV channels. (However, it worked fine when using Info button)
- Added Simple USB PVR function.
- Improved Trickmodes speed. (e.g. 8x 16x speed)
- Finnish OSD language corrections.
