

Watershot® SPLASH for iPhone 5 & 6

TRUSTED BY THE WORLD'S BEST

PHOTOGRAPHERS • CINEMATOGRAPHERS • ADVENTURERS

PHOTOGRAPHY BY
ZAKNOYLE
WATERSHOT PRO TEAM

DESIGNED AND BUILT FOR THE EXTREME DEMANDS OF WATER SPORTS

Watershot® for iPhone & Galaxy and Watershot® SPLASH for iPhone is a waterproof Camera Housing product line for every water enthusiast that's embraced the future of digital photography and videography by utilizing the extraordinary capabilities of today's smartphones.

Watershot® has a rich legacy in the world of water photography. Adhering to a "no compromise" philosophy and extraordinary attention to every detail, Watershot® Camera Housings – whether for smartphone or commercial professional cameras – are considered best-in-class.

A HOUSING NOT A CASE

Watershot® Camera Housings meet the dynamic real-world, raw conditions and challenges for protection against repeated and continuous water submersion. Cases generally meet the standards of exposure set in an environmentally stable water immersion laboratory, under optimum controlled and calibrated conditions of selected pressures and times.

3-point tripod mount plate = maximize mounting options & minimize rotation

**Calls can be made, but sound quality may be reduced. Headphone jack & charging port access not available*

WATERSHOT® PRO FOR iPhone® 5 & 6

The Watershot PRO is an exceptionally robust, Professional Dive Camera Housing for the iPhone *5/5c/5s/6 & 6+. The Housing is also available for purchase as a complete kit with two removable Lens Ports – Flat and Wide Angle. The Wide Angle Lens increases the FOV - Field Of View to 110 degrees. The depth rating is an impressive 195ft/60m. An ergonomic right hand grip and a wrist lanyard affords improved handling and security in all conditions. The base of the Camera Housing features a prominent, robust and simple integrated metal mounting plate. Machined with a series of three standard 1/4-20 threaded tripod holes and two anti-rotation holes intelligently spaced, this mounting plate will also accommodate the Watershot® Accessory PRO Mount for utilizing endless Go-Pro® mounting options.

- COMPATIBLE WITH
iPhone 5 / 5s / 5c* / 6
- DEPTH RATING
195 Feet / 60 Meters
- REMOVABLE LENS PORT
WITH THREADED LENS BEZEL
For Accessory Lenses & Filters
- TRI-POD MOUNT
for Easy Mounting
- FREE CUSTOM APP
Optimizes Still & Video Functions

*Conversion kit required for 5c compatibility

The Removable Lens Port System allows fast, efficient, field-changing of the *Standard Flat Lens and the **0.39X Wide Angle Lens in dry conditions only. The PRO Model may be purchased as a kit that includes both Lenses.

Zak Noyle Pro Model (right) with Wide Angle Dome Port (below)

iDive™

Marine Biologist, Dr. Michael Berumen had grown frustrated with the current tools of the trade – manually recording his findings with pencil and paper while underwater. Back in the lab, many more tedious hours were spent recording the data into endless spreadsheets. He knew there must be an underwater digital solution. An iPad solution. Working with Watershot, Berumen's invention is poised to revolutionize the underwater world.

iDIVE FOR iPad

THE FIRST FUNCTIONAL TOUCHSCREEN HOUSING FOR UNDERWATER USE

Recommended Depth Ratings

- » CO2 Cartridge Supply – 40m
- » First stage supply – 100m

Features

- » Robust, waterproof housing designed to withstand extreme pressure
- » Flexible membrane allows the diver to interface with the touchscreen while still keeping the iPad protected
- » Pressure management system enables the diver to place a layer of air between the screen and membrane, while also allowing the critical function of purging air during ascents
- » Threaded accessory mounts around the housing perimeter allow the user to customize configurations with external lights, sensors, or other tools
- » Compatible with the iPad 2, 3, 4, Air & Air 2, and proven Watershot® Optical Quality Glass Lens Ports and Filter Kits.

iDive housings have been tested successfully to 100m with no negative effects to the iPad.
