

  
**BIO SEAWEED GEL®**  
Healthier Nails, Healthier You

To Our Valued Customers,

Thank you for choosing Bio Seaweed Gel (BSG).

We are a family owned and operated business, whose roots started in the nail industry with the opening of our first nail salon in Toronto, ON Canada in 1996. Working in the nail industry first hand, we found there was a lack of professional nail products that were both healthy and high quality. To fulfill this need, Bio Seaweed Gel was established.

Since 2006, BSG has been committed to delivering high quality and healthier nail products. As one of the industry's earliest advocates for healthier nail care, we offer an array of professional nail products with a focus on big-5 free, cruelty free and vegan friendly formulations. We believe when you are choosing a nail product, you should not have to compromise between health and beauty. We believe your nails should make you feel as good as they look.

Found in salons and homes across the globe, we strive to provide exceptional customer service and reliable products to both nail professionals and nail enthusiasts. Customer satisfaction is what motivates us to keep going and leads us to create quality products that you can trust.

Yours Truly,  
The Luu Family
