

SOAK-OFF REMOVAL INSTRUCTIONS

Follow these steps to remove 3STEP, UNITY, Sculpting Gel and Dip Powder.

1. Break the seal by lightly filing the top layer to remove the shine.
2. Saturate a cotton pad with 100% pure professional acetone and place on top of each fingernail.
3. Wrap each finger tightly with foil and allow estimated soak off time.
4. Remove foil and use cotton ball to wipe off softened product.
5. Use an orangewood stick and/or buffer to gently remove any remaining product.
6. Do not use excessive force, re-wrap and re-soak if necessary.
7. Wash hands with soap and moisturize.

Product	Estimated Removal Time
BeBio Nail Lacquer	Removes by wipe-off removal
Gel Polish	5-10 minutes
Sculpting Gel System	10-15 minutes
Dip Powder System	15-25 minutes
