

ARTIFICIAL TIP EXTENSION APPLICATION

1. Prep natural nails
2. Glue artificial tip
 - Trim and shape to desired length and shape
 - File and blend artificial tip until flush with natural nail
3. Apply **BSG Dip Liquid #1 Prep** to natural artificial nails and allow 60 second air-dry
4. Apply very thin coat of **BSG Dip Liquid #2 Base** to the connecting line of natural nail and tip and immediately dip into **BSG Dip Powder #0 Natural**
 - Dip in a 45-degree angle and tap off excess powder
 - Always use a brush to dust off any remaining loose powders
5. Apply **BSG Dip Liquid #2 Base** to 75% of nail, leaving space at the cuticle and immediately dip into **BSG Dip Powder #0 Natural**
 - Repeat and complete one nail at a time
6. Rotate Dip Colour Powder
 - Apply **BSG Dip Liquid #2 Base** to 100% of the nail and immediately dip into desired **BSG Dip Powder Colour**
 - Repeat this step until desired colour and coverage is achieved
7. Apply final **BSG Dip Liquid #2 Base** to 100% of the nail and immediately dip into **BSG Dip Powder #00 Clear**
 - Dust off any remaining loose powders
8. Apply **BSG Dip Liquid #3 Activator** and allow 60 second air-dry
9. File, buff and shape nails as desired
 - Cleanse nails with lint-free wipe and alcohol
10. Apply **BSG Dip Liquid #3 Activator** and allow 60 second air-dry
11. Finish with 2 coats of **BSG Dip Liquid #4 Top**, allow 2 minutes of air-dry time
 - Moisturize with oil
