

HARROGATE JEWELLERS

Have a ring that is the correct size?

Simply use the guidelines below and place the ring on top of the circles until you find the circle that aligns with the inside of your ring.

Measure Your Finger for the Perfect Ring Size

1. Print this document on A4 paper, ensuring that 'Fit to page' or 'Printable area' is not selected.
2. Carefully cut around the sizer and create the indicated slot.
3. Wrap the sizer around your finger and insert the end through the slot.
4. Gently pull the end until the sizer fits snugly around your finger.
5. Read the letter that the arrow points to — this is your ring size!

Tip: Make sure the sizer is snug but not tight. It should slide comfortably over your knuckle to avoid choosing the wrong size.
