

FUNDAMENTAL SERIES

STARTER GUIDE

Thanks for checking out the Fundamental Series! Click or tap on a pedal below to see some settings we recommend to get started.

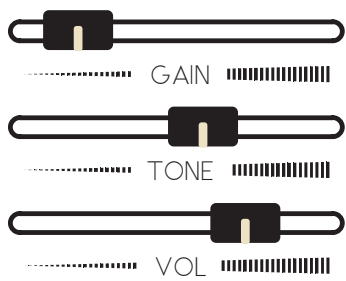

FUNDAMENTAL DRIVE

[Watch the tech demo](#)

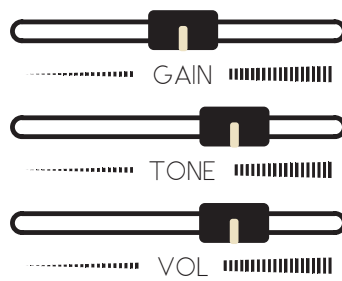

The Fundamental Drive is a versatile overdrive that allows for a wide range of tones thanks to its three-mode switch. This is the perfect tool at the front of your chain to set the tone for your whole rig.

CHORDS OF POWER

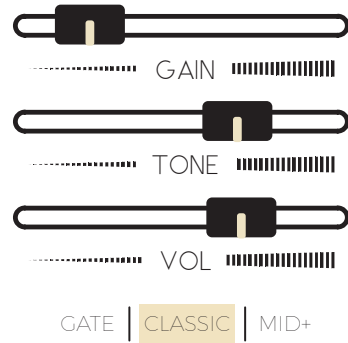

FUNDAMENTAL FUZZ

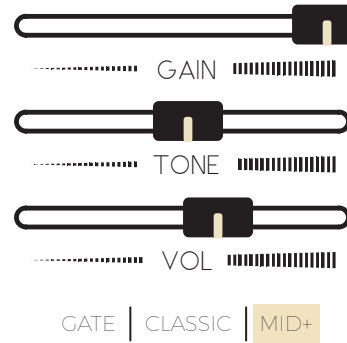

[Watch the tech demo](#)

The Fundamental Fuzz is a three-mode, aggressive fuzz pedal with a wide tonal range. It can live anywhere in your chain: hit it with your favorite overdrive or push it into another crazy distortion.

PURPLEISH HAZINESS

FULL, FAT & HAPPY

STARVED & ANGRY

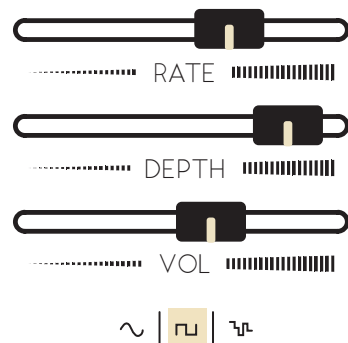

FUNDAMENTAL TREMOLO

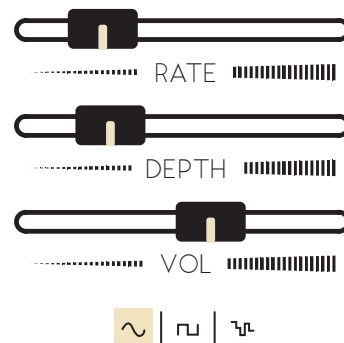

[Watch the tech demo](#)

The Fundamental Tremolo is a classic optical tremolo, giving you that iconic chewy movement. With three wave shapes to select from, you can get sounds from smooth and soothing to glitchy, wild, and crazy.

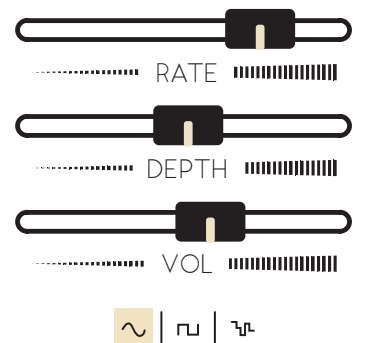

CHOP CHOP

SUBTLE TEXTURE

THE HIVE

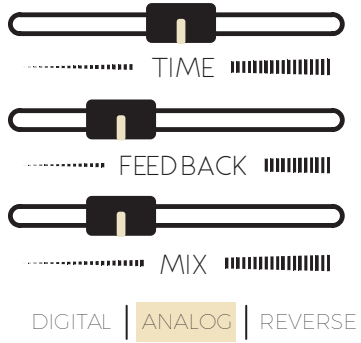

FUNDAMENTAL DELAY

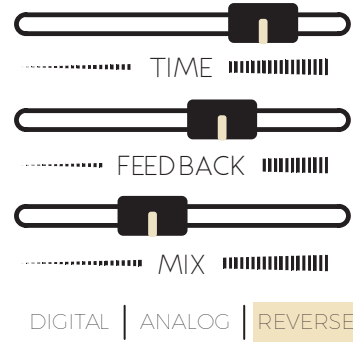

[Watch the tech demo](#)

The Fundamental Delay provides you with the core sounds of repeated effects. With three delay algorithms, you can go from clean digital feedback to an analog delay emulation, as well as reversing your trails.

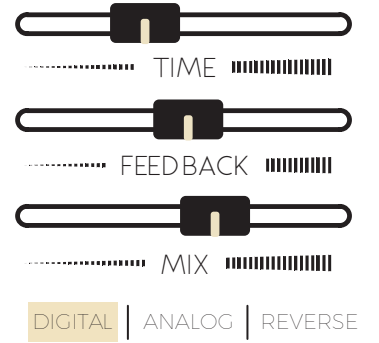

A TOUCH OF WARMTH

BACKWARDS THINKING

ON THE EDGE

Tip: select dotted eighth tap divisions by holding the bypass switch until the LED starts blinking. Move the selector switch to the (♪) icon. Press and hold bypass to exit tap mode.

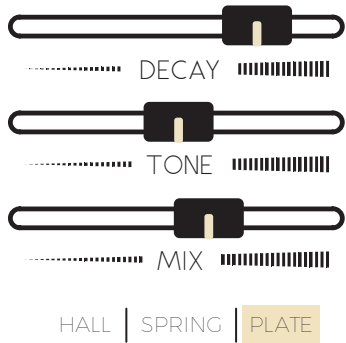

FUNDAMENTAL REVERB

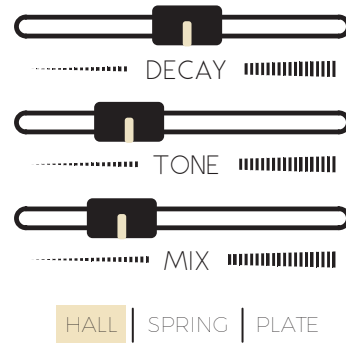

[Watch the tech demo](#)

The Fundamental Reverb provides you with the core sounds of ambient effects. With three reverb algorithms, you can go from an ambient hall to an analog spring emulation, as well as a bright plate emulation.

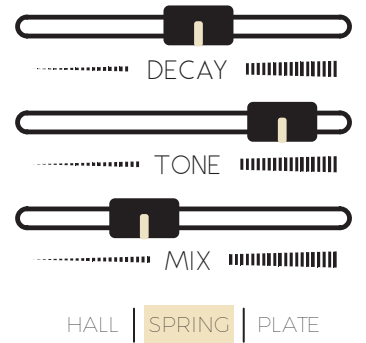

A REALLY BIG SPACE

THE DRIP

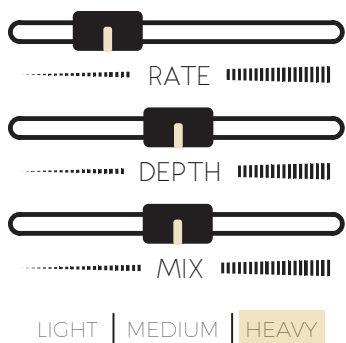

FUNDAMENTAL CHORUS

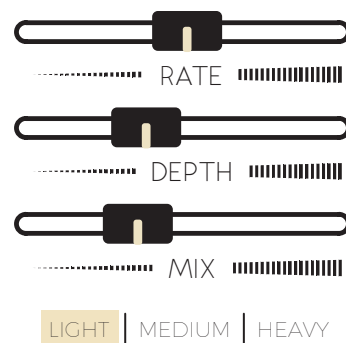

[Watch the tech demo](#)

The Fundamental Chorus is a digital emulation of a classic analog chorus, recreating bucket brigade modulation. With three types of chorus algorithms to select from, you can get sounds ranging from gentle modulation all the way to 80's tri-chorus.
