- Branding
- Illustration
- Photography
- Graphic Design
- UI/UX Design
- Storyboarding
- Javascript/Bootstrap
- Motion Graphics/ 3D Modeling
- Microsoft O365
- Event Design

WHAT TO EXPECT

- Leadership/Collaboration
- Flexibility/Adaptability
- Self-motivation & Follow-through
- Creativity
- Content Strategy
- Creative Storytelling
- Visual Narratives

EXPERIENCE

Booz Allen Hamilton
October 2011 – June 2025

Christopher worked with multiple federal clients as a UX, brand, and visual designer. He delivered visual communication solutions across web, motion graphics, branding, print, and illustration. Known for his logical approach and clear communication, Christopher excelled at translating complex ideas into elegant designs. He thrived in fast-paced teams under tight deadlines, helping clients easily articulate and achieve their design goals. At Booz Allen, Christopher has worked with:

- **U.S. Department of Defense (DoD) – Chief Digital and Artificial Intelligence Office, Digital Talent Management**
Art director for the Digital Commons Talent Hub, an online portal for military and civilian members of the DoD to access asynchronous training and disseminate department standards concerning the implementation and adoption of AI into workstreams.

- **U.S. Department of Transportation (U.S. DOT) – Intelligent Transportation Systems Joint Program Office**
Created illustrations and storyboards to clearly communicate complex transportation technologies for U.S. DOT programs, including Connected Vehicles and Smart Communities. Collaborated with all U.S. DOT agencies to design and organize research data into accessible web platforms. Worked with the Office of the Sectretary of Transportation to design and disseminate the Automated Vehicles Comprehensive Plan. Designed event space and materials for conferences such as South by Southwest and the Consumer Electronics Show.

- **U.S Treasury – Dashboards as a Service (DaaS)**
Designed wireframes and mockups for web and mobile portals using Sketch, Photoshop, and Illustrator. Built interactive prototypes in InVision for client and team review. Transitioned to front-end development and implementing designs using HTML5, CSS, jQuery, and Drupal 7 for the DaaS product.

- **U.S. Department of Defense – Office of the Under Secretary of Defense for Acquisition & Sustainment**
Led the branding and design of communications materials for Trusted Capital (TC), Cybersecurity Maturity Model Certification (CMMC) and the Chief Information Security Office (CISO) for use by congressional leadership.
