

OVERTIME IN SANTA'S WORKSHOP

SETUP

- Work tables (1 for each 3 **Elf Assemblers**) are lined up across front of stage, behind conductor
- Allow sufficient room for **Elf Runners** to pass in front of and behind tables
- Cafeteria Trays required = # of **Elf Assemblers** + **Elf Runners**

Cafeteria Tray

- Instrument
- Appropriate stick/mallet
- Rhythm sheet, laminated and taped to tray
- Instrument remains on tray (except ratchet, tambourine, cabasa)

PERFORMANCE NOTES

- **Elf Assemblers** should play instruments with an exaggerated “hammering” motion when possible, as if working on a toy with a tool
- During “coffee” breaks (letter A, letter F), all elves should pantomime laughing, talking, etc.
- The score lists 12 instruments for **Elf Assemblers**, each with an assigned rhythm. If using fewer than 12, choose any combination you like
- The **Elf Supervisor's** whistle cues are not required. Any form of signaling that works is fine – yelling, bullhorns, non-verbal cues, etc.
