INSTALLATION INSTRUCTIONS

DISCLAIMER FOR RALLY INNOVATIONS PRODUCTS: Buyers assume all risk and liability whatsoever for the installation and the use of Rally Innovations products. Rally Innovations products are sold as decorative accessories and should not be relied upon as protection for the vehicle or occupants in the event of a collision or roll over. Vehicles equipped with a supplemental restraint system (air bag) deployed by impact should not be modified by any aftermarket Light Bar or Skid Guard without first consulting the vehicle manufacturer. Rally Innovations, a subsidiary of Pentech Automotive assumes no liability for injury, loss, incidental or consequential damages in the event of a collision or roll over.

Drill 5/16" size holes where you marked your centermarks (use a 1/8" bit first to create a pilot hole).

5

Install rear splitter using (1) 1/4" Buttonhead bolt, Washer, Lock Washer, and Hex Nut on the rear most mounting hole. Install (2) 5/16" Buttonhead bolts, Washers, Lock Washers, and Hex Nuts on the remaining mounting holes. Reinstall plastic rivets and screws removed in steps 1-2.

6

Completed assembly.
