PACKAGE CONTENTS				TOOLS	
QTY		QTY		3/16" Hex Key Tape	
1	Light Plate				
1	Backing Plate				
4	5/16" Rivnut				
4	5/16" - 18 x 1.25" Buttonhead Screw				
4	5/16" Flat Washer				

INSTALLATION INSTRUCTIONS

Insert (4) 5/16" Rivnuts through each hole in the Backing Plate. Ensure that the Rivnut heads are on the face that bends towards you.

1

Tape the Rivnuts onto the Backing Plate.

2

Remove the clips holding the plastic upper bumper piece and pry away the passenger side.

3

Insert Backing Plate with the Rivnuts protruding forward through the Plate. Note that the center rivnuts sit higher than the outer rivnuts.

4

DISCLAIMER FOR RALLY INNOVATIONS PRODUCTS: Buyers assume all risk and liability whatsoever for the installation and the use of Rally Innovations products. Rally Innovations products are sold as decorative accessories and should not be relied upon as protection for the vehicle or occupants in the event of a collision or roll over. Vehicles equipped with a supplemental restraint system (air bag) deployed by impact should not be modified by any aftermarket Light Bar or Skid Guard without first consulting the vehicle manufacturer. Rally Innovations, a subsidiary of Pentech Automotive assumes no liability for injury, loss, incidental or consequential damages in the event of a collision or roll over.

Press the Backing Plate into the grill. Check that the Rivnuts are inserted into the hexes shown.

5

Fasten the Light Plate with (4) 5/16" Buttonhead Screws and Flat Washers. Reach through the grill to hold the Rivnuts in place.

6

Attach, wire, and test Driving Lights before re-attaching the plastic bumper piece. (Baja Designs S2 LED lights shown.)
