As part of our environmental work we now offer a repair service to help you mend your old Kavat shoes. We all have a pair of worn-in favorite shoes hanging in there by the last thread. Often, the only major problem with the shoes are worn out soles. We offer a total repair service of above items, including replacement of both insole and outsole. The shoes are revamped to the best shape possible. Any broken seams are fixed, laces are replaced and the leather is polished. You get to keep using your favorite shoes for years to come, and at the same time you act in an environmentally responsible manner by reusing instead of buying new.

Do you have any special requests, please state them here:

(Please give your shoes a first clean before sending them)

EXCEPTIONS: If our cobbler decides your shoes are impossible to fix, we reserve the right to cancel your order. This concerns repairs that are not specified above. In such a case, a 10 EUR administrative fee is charged and a refund of 69 EUR is transferred to the account from which payment was made. Your shoes will be returned to the address provided. In case of doubts, please e-mail a picture of your shoes and we'll try to make an assessment. support@kavat.com
