INFORMATION SHEET

RED DEVIL

RED DUST & STAIN REMOVER

RED DEVIL (AC590) is a blend of acids, surfactants and performance building agents formulated for the fast and efficient removal of rail dust, bull dust, pindan dust and iron ore dust from cars and truck paintwork, marine equipment, structures, and machinery. This product is also an excellent cleaner of bore water stains and is effective at brightening of aluminium and stainless steel.

Recommended directions:

RED DEVIL may be used neat, or diluted with up to 10 parts of water for removing red dust from vehicle paint work, synthetic floor mats and most hard surfaces. We recommend a dilution rate of 1 part of **AC590** to 5 parts of water be trialled in an inconspicuous spot; the solution can be diluted further or strengthened according to the extent of the contamination. Swab surface, working from the bottom upwards and keep wet evenly until clean. Flush with fresh water. Ensure that the surface is uniformly covered as uneven application may produce streaking. This product will not normally harm seals or nylon or synthetic carpets but always do a trial or test area in an inconspicuous area first.

NOTE: AC590 is corrosive to some metals, glass and other material containing silica. Do not allow prolonged contact with such materials as etching may result.

Safety Directions:

WARNING - HIGHLY CORROSIVE. **RED DEVIL** contains less than 1% Hydrofluoric acid. Avoid contact with skin and eyes. Causes severe burns. Wear suitable protective clothing, gloves and eye/face protection. Do not breathe vapour/spray. Wash gloves thoroughly, immediately after use.

First aid:

In case of accident or if you feel unwell, contact a doctor or Poisons Information Centre immediately (show the label where possible). After contact with skin, wash immediately with plenty of water. Take off immediately all contaminated clothing. Immediately apply calcium gluconate gel to affected skin. In case of contact with eyes, rinse immediately with plenty of water and contact a doctor or Poisons Information Centre.

Packaging:

1, 5, 20 & 205 litre drums

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, MSDS or Information Sheet unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.

BENEFITS & TIPS

- EATS BORE, IRON & RUST STAINS – PURE CHEMICAL ACTION – NO SCRUBBING JUST KEEP SURFACE WET WITH PRODUCT & ALLOW TIME TO WORK
- MOST POWERFUL FORMULA WITHOUT LICENSE
- SAFE TO USE ON MOST PAINTED SURFACES SUCH AS CARS, TRUCKS, POWDERCOATS ETC.
