WHEEL POWER

TYRE, RIM, UNDER CARRIAGE & RUBBER TRIM CLEANER

PRODUCT DESCRIPTION :

For Professional USE ONLY. Concentrated touchless chemical technology for professional cleaning of tyres, rims, under carriages and engine bays without scrubbing. Dilutable concentrate easily removes brake dust, red dust, grease & road films with ease (1 Litre makes 3 Litres) without the need for scrubbing in most applications. This product can be used in other applications in the car detailing industry (ie as touchless vehicle body prespray / cleaner) however trials should be conducted to determine dilution ratio so no undesired results are achieved (1 part Product to 2 Parts Water). This product may damage some types of paintwork if used too strong, applied to a hot surface or left to dry on surface.

HOW TO USE:

Before you start: Ensure the item to be cleaned is in the shade & surface is not hot to the touch.

STEP 1 Decant 1 part product into a spray pack and 2 parts water (1:2) & apply evenly.

Decant the product from bulk container into a 750ml spray bottle or garden sprayer. Spray directly onto the wheel and tyre working from bottom upwards. Allow the chemical to dwell & work for approximately 1 minute.

STEP 2 Rinse and dry wheel.

Rinse the wheel off with pressure washer or garden hose. Allow to air dry or aid drying with a soft rag to prevent water spotting. If the wheel is really dirty, you might need to spray and rinse it again.

STEP 3 Apply the shine.

Finish the job off by applying an even layer of tyre shine. We recommend the use of "Super Shine" because this product dries fast, requires no wiping, is streak free and leaves a lasting shine that is not readily absorbed. Never apply Super Shine to a wet tyre as quality results will not be achieved.

BENEFITS & TIPS

- Phosphate free
- Acid free
- Touchless technology
- Easy to use
- Powerful formula
- Saves time & money
- Works quickly
- Professional use

WARNING:

Never spray wheel cleaner on a hot surface, otherwise it may stain the wheel (or paint work). Avoid overspray onto paintwork (unless desired) as stain or stripping may occur. Do not allow the product to dry on the surface, always rinse it off with high pressure water. Highly corrosive to skin and eyes in concentrated form. Avoid direct contact with the product, always use gloves, protective goggles and respiratory mask should be worn when handling and using.

FIRST AID:

If poisoning occurs, contact a doctor or Poison Information Centre. If swallowed, DO NOT induce vomiting. Give a glass of water. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

PACKAGING:

5, 20 & 205 litre containers/ drums
750ml spray bottle

CONDITIONS OF SALE & USAGE (STANDARD DISCLAIMER)

This product should not be used for any purpose or in any manner contrary to the labelling, SDS, or Technical Data Sheet, unless authorised to do so under appropriate legislation. By purchasing and using this product the purchaser assumes responsibility for any and all results that may occur and shall not hold the manufacturer liable for any loss or injury however occurring.
