*Strangulation Hazard: To help prevent strangulation tighten all fasteners. A child can trap parts of the body or clothing on loose fasteners.

*Strangulation Hazard: Do not place crib near window where cords from blinds or drapes may strangle a child.

*Fall Hazard: When child is able to pull to a standing position, set mattress to lowest position and remove bumper pads, large toys and other objects that could serve as steps for climbing out. This crib has an adjustable mattress support. For the convenience of the parent when the baby is very small, the mattress support may be used in the highest position. Important: with the mattress support and mattress in the highest position, be absolutely sure that the top of the front crib side is at least 3 inches higher than the top surface of the mattress. If it is not, lower the mattress support and the mattress to the next highest position.

*Fall Hazard: Stop using crib when child begins to climb out or reaches a height of 35 in. (90 cm), whichever occurs first. The child should be placed in a youth or regular bed.

*Check this product for damaged hardware, loose joints, missing parts or sharp edges before and after assembly and frequently during use. Do not use crib if any parts are missing, damaged or broken. Contact Delta Children's Products for replacement parts and instructional literature if needed. Do not substitute parts.

*Follow warnings on all products in a crib.

*Do not use a water mattress with this crib.

*If refinishing, use a non-toxic finish specified for children's products.

*Never use plastic shipping bags or other plastic film as mattress covers because they can cause suffocation.

*Infants can suffocate in gaps between crib sides and a mattress that is too small.

*Ensure a safe environment for the child by checking regularly, before placing the child in the crib, that every component is properly and securely in place.

*To avoid head injury, do not allow any child to play underneath the crib.

*Never add an accessory such as a bassinet or changing table that extends over the sleeping area.
