

All-Natural Deodorizer and Air Purifier for Car

Directions for Use

- Place the two Pureboo pouches anywhere in your car, ideally apart from each other where they are exposed to circulating air.
- Unpleasant odors should improve within a few days and be eliminated within a week.
- Pureboo pouches rejuvenate naturally. Just place the pouches in direct sunlight outside of your car once a month.
- After 12 months, the contents of the pouches can be recycled into the soil where Pureboo acts as a natural fertilizer.
