

TRIPLEX MCT-3

WHAT'S THE DIFFERENCE

BETWEEN COCOTHERAPY® TRIPLEX™ MCT-3 OIL
and OTHER BRANDS OF MCT OIL?

OTHER MCT OILS

01

Made with 100% organic coconuts

02

Made with cold-pressed, organic, virgin (unrefined) coconut oil

03

Smells and tastes like coconuts

04

Not processed with high heat or hexane

05

Fatty Acid breakdown (Average):

- ✓ Caprylic Acid (C8:0) **7000 mg**
- ✓ Capric Acid (C10:0) **4700 mg**
- ✓ Lauric Acid (C12:0) **1500 mg**

06

Contains Lauric Acid (1500 mg)

07

Bottled in glass jars

01

Made with palm kernel oil, or palm oil mixed with coconut oil

02

Made with expeller-pressed, RBD (refined, bleached, deodorized) coconut oil or palm kernel oil

03

Does not have the smell and taste of coconuts – odorless and tasteless

04

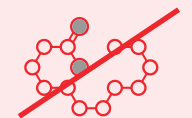

Processed with high heat and solvents (hexanes)

05

Fatty Acid breakdown (Average):

- ✓ Caprylic Acid (C8:0) **5600 mg**
- ✓ Capric Acid (C10:0) **3800 mg**
- ✗ Lauric Acid (C12:0) **0 mg**

06

Does not contain Lauric Acid (0 mg)

07

Bottled in plastic jars – (fats break down plastics, and can leach into the oil).
