Japan Bio Products

Japan Bio Products Co., Ltd.

JBP(Japan Bio Products), a global pharmaceutical company specialized in placenta, was founded in 1954 with its headquarter located in Tokyo, Japan.

It was the first company to get approval of the human placenta injection by Japan's Ministry of Health, Labor and Welfare and its injection has been widely used as a representative placenta injection in Japan over 60 years. JBP is now the world's leading company in the area of placenta-based products including supplements and cosmetics.

JBP has global branches in Korea, Taiwan, China, Vietnam and Europe as well as numerous distributor in the world.

04

JBP KOREA

JBP KOREA

JBP Korea is a Korean local corporation established in 2005 and it is engaged in the import and export of pharmaceuticals, cosmetics and medical devices.

It sells medical devices including JBP Nanoneedle(FDA approved) and JBP Nanocannula and Cosmetics including PLARECETA and PILOPLA as its main products for both domestically and internationally.

JBP Korea was awarded in TOP export of 5 million dollars in 2016 and is leading the market not only overseas market but also in domestic market with advanced technology and strong product power.
