Two & Three Dimensional Geometry

Area

“Moreover, when ye shall divide by lot the land for inheritance, ye shall offer an oblation unto the LORD, an holy portion of the land: the length shall be the length of five and twenty thousand reeds, and the breadth shall be ten thousand. This shall be holy in all the borders thereof round about.” Ezk 45:1

$$\text{Area} = \text{length} \bullet \text{width}$$

$$\text{Holy Oblation} = 25,000 \text{ reeds} \bullet 25,000 \text{ reeds} = 6.25 \times 10^8 \text{ reeds}^2$$

Volume

“And this is the fashion which thou shalt make it of: The length of the ark shall be three hundred cubits, the breadth of it fifty cubits, and the height of it thirty cubits.” Gen 6:15

$$\text{Volume} = \text{length} \bullet \text{width} \bullet \text{height}$$

$$\text{Noah's Ark} = 300 \text{ cubits} \bullet 50 \text{ cubits} \bullet 30 \text{ cubits} = 450,000 \text{ cubits}^3$$

Cubes and/or Pyramids

“And he that talked with me had a golden reed to measure the city, and the gates thereof, and the wall thereof. And the city lieth foursquare, and the length is as large as the breadth, and he measured the city with the reed, twelve thousand furlongs. The length and the breadth and the height of it are equal.”
Rev 21:15-16

If the New Jerusalem is a city in the shape of a cube

$$\text{Volume} = \text{any side}^3 = (12,000 \text{ furlongs})^3 = 1.73 \bullet 10^{12} \text{ furlongs}^3$$

If the New Jerusalem is in the shape of a mountain or pyramid (where height, length & width are equal)

$$\text{Volume} = \text{length} \bullet \text{width} \bullet \text{height} / 3 = (12,000 \text{ furlongs})^3 / 3 = 5.76 \bullet 10^{11} \text{ furlongs}^3$$

The Golden Ratio & Fibonacci Numbers

The golden ratio or golden number (often designated by the Greek letter phi ϕ) is a ratio important in mathematics and art. This value is found in the human body, throughout nature and is often used by artists and architects in their works as it produces proportions that are pleasing to the eye. The most common expression of the golden ratio is the golden rectangle.

A golden rectangle can be divided into a square (a) and a smaller rectangle where the smaller rectangle (b) is the same shape as the larger rectangle in other words the sides of b and ab are proportional.

$$\text{Mathematically } a/b = (a + b)/a$$

$$\text{Proportionally } 1:1.618$$

The Fibonacci Numbers are a sequence of numbers (0, 1, 1, 2, 3, 5, 8, 13, 21, etc.) where each number is the sum of the two previous numbers (0+1; 1+1; 1+2; 2+3; 3+5; etc.). The relationship or proportion of each number in this sequence to the next number is the golden ratio and becomes more exact as the numbers grow larger.

Some examples of golden rectangles in Scripture would include the ark of the covenant ($1\frac{1}{2}$ cubits : $2\frac{1}{2}$ cubits = 1.667) and the end of Noah's Ark (30 cubits : 50 cubits = 1.667)

For examples of Fibonacci numbers in Scripture, consult Section One in the *Concordance of Bible Numbers* and look up the Fibonacci Numbers that appear in Scripture: 1, 2, 3, 5, 8, 13, 21, 34, 55, & 144.

Inequalities

"I say unto you, that likewise joy shall be in heaven over one sinner that repenteth, more than over ninety and nine just persons, which need no repentance." Luk 15:7

"A reproof entereth more into a wise man than an hundred stripes into a fool." Pro 17:10

An inequality shows a relation between two values where a is not equal to b.

Sequences

Genesis 1 – seven days of creation (1st day, 2nd day, 3rd day, etc...)

I Chronicles 25 – the 24 courses of Levites that rotated temple worship duties

Ratios, Proportions & Percentages

Numbers 31:25-47 records the conquest of Moab. Many thousands of human captives, sheep, beeves and asses were taken by the armies of Israel. On this occasion, the booty was divided up according to the following formula:

"And divide the prey into two parts; between them that took the war upon them, who went out to battle, and between all the congregation:" (vs. 27)

"And levy a tribute unto the LORD of the men of war which went out to battle: one soul of five hundred, both of the persons, and of the beeves, and of the asses, and of the sheep:" (vs. 28)

"And of the children of Israel's half, thou shalt take one portion of fifty, of the persons, of the beeves, of the asses, and of the flocks, of all manner of beasts, and give them unto the Levites..." (vs. 30)
