Sea of Galilee

About the New Moon and the Beginning of the Scriptural Year

1. The days marked as Rosh Chodesh are the dates on which the new moon for each month is expected to be visible between sunset and moonset in Johannesburg. A Scriptural month is determined by the sighting of the moon and a month can only be 29 days or 30 days long.
2. The Scriptural year begins with the first new moon after the barley in Yisra'el reaches the stage in its ripeness called "aviv". The month of Aviv (start of the Scriptural New Year) can only be introduced with the physical presence of barley in Yisra'el.
3. If barley is not in its stage of ripeness called "aviv", then a thirteenth month is introduced, this ensures that the month of "aviv" (the first Scriptural month) always falls within its proper season.
4. It is important to look for the new moon as the Appointed Times / Feast Days are determined by the sighting of the new moon.
5. In creating this calendar, various sources were consulted in order to calculate the sighting of the new moon. This calendar is to assist Torah observant believers in their planning, but in the final analysis, the sighting of the new moon is paramount.
6. Although all care has been taken to calculate the New Moons and Festivals Days as accurately as possible, we cannot take responsibility for the actual beginning of the Feast Days as the New Moon should be sighted by the naked eye at your location.

HaTikva (The Hope) Israel's National Anthem

Transliteration

התקווה

Kol od balevav p'nimah	כל עוד בלבב פנימה
Nefesh Yehudi homiyah	נפש יהודי הומיה
Ulfa'atey mizrach kadimah	ולפאתי מזרח קדימה
Ayin l'tzion tzofiyah	עין לציון צופיה
Od lo avdah tikvatenu	עוד לא אבדה תקותנו
Hatikvah bat shnot alpayim	התקווה בת שנות אלפים
L'hiyot am chofshi b'artzenu	להיות עם חופשי בארצנו
Eretz Tzion v'Yerushalayim	ארץ ציון וירושלים

English Lyrics

As long as deep in the heart,
The soul of a Jew yearns,
And forward to the East
To Zion, an eye looks
Our hope will not be lost,
The hope of two thousand years,
To be a free nation in our land,
The land of Zion and Jerusalem.

Torah Portions

The Torah (the first 5 books of Scripture), commonly known as the Law (but more correctly Teaching), is divided into portions, so that the whole Torah is read in 1 year. Each portion is named after a key word in the opening paragraph of the portion. The custom of reading the Torah on every Shabbat was already practiced in the days of Yahushua our Messiah - Please see the next page.

New Moons

On this calendar the New Moons are expressed in the Hebrew form "Rosh Chodesh", literally meaning "Head/Beginning New/Renewed",

denoting the first sighting of the moon after conjunction. The day after the first sighting of the moon is the first day of a new month.

The New Moon days in this calendar are calculated as close as possible for Johannesburg. It is recommended that you look out for the New Moon in your area.

The New Moon (beginning of the new month) determines the dates of the festivals of the first month (Aviv) and the seventh month (Tishrei). It is very important to confirm the date of the New Moon of Aviv and Tishrei, for these will influence all the dates of the Set Apart appointments legislated in Wayyiqra (Leviticus) 23.

The Scriptural year begins with the first New Moon after the barley in Israel reaches the stage in its ripeness called "aviv".

Appointed Times

The legislated appointments of Wayyiqra (Lev.) 23 are all calculated from the New Moons. The "Jewish" festival dates do not always correspond with the New Moon calculated dates. In all cases the "Jewish" festivals can be recognised by the candle lighting times indicated on the calendar.

- Pesach – Passover
- Festival of Matzot – Festival of Unleavened Bread
- Shavu'ot – Festival of Weeks (Pentecost)
- Yom Teru'ah – Day of Soundings (Trumpets)
- Yom haKippurim – Day of Atonement
- Festival of Sukkot – Festival of Tabernacles
- Shemini Atzereth – Eighth Day

Other Dates

Several other feasts are indicated in this calendar, such as the feast of Purim and Chanukah. Although these feasts are found in Scripture, they are not legislated in the Torah. We do however recommend that these festivals be observed in the interest of Scriptural awareness.

Other days of interest or "Jewish" holidays are also indicated, such as Tu'B'Shvat, Fast of Esther, Yom haAtzma'ut, Tisha B'Av, etc.

We have also indicated other dates of interest regarding the Land of Israel, as well as the regular South African public holidays.

This calendar was prepared and is published by Qodesh Books, for the purpose of raising Torah awareness among believers.
