PROJECT DESCRIPTION

The homeowner needed a DIY solution for the deteriorating plywood roof of his gazebo. The roof was leaking heavily especially during the early spring snow melt. By applying Liquid Rubber Colored Waterproof Sealant, the homeowner was able to complete his own project.

CHALLENGE

Providing a seamless, waterproof, roofing solution that the Homeowner could easily apply.

LIQUID RUBBER SOLUTION

- Substrate was dried and cleaned with a sander to provide a smooth surface for application.
- Liquid Rubber Seam Tape was used to bridge joints & cracks.
- Multiple coats were applied by pouring out and spreading with a roller.
- Final Coverage was approximately 30 ft² per G.
