PROJECT DESCRIPTION

This outdoor patio had long lived past its useful life. The owner wanted to renovate with a new surface but needed to ensure the substrate was waterproof before covering. Liquid Rubber Waterproof Sealant was the natural choice to due to ease of application.

CHALLENGE

Finding a waterproof solution that can handle uneven surfaces.

LIQUID RUBBER SOLUTION

- Surface was cleaned with a pressure washer.
- Liquid Rubber Seam Tape was applied to joints and transitions where needed.
- Liquid Rubber Waterproof Sealant was poured and rolled over the entire surface.
- 3 heavy coats were applied using a total amount of 20 ft² per G.
- A slip sheet of poly was used before applying leveling sand and stone surface.
