

Products: **WATERPROOF SEALANT & SEAM TAPE**

Application: **Waterproof Patio over Wine Room**

Applicator: **DIY Home Owner**

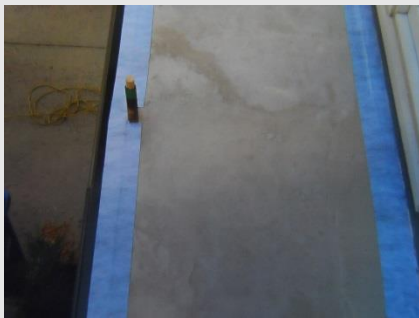

Location: **Calgary, Alberta**

Project size: **150 ft²**

Completion date: **Oct 2013**

PROJECT DESCRIPTION

Home owners were consistently getting water into their wine room from the patio above. It was discovered there was not a waterproof membrane applied before the patio tiles were installed. The old tiles were removed and concrete smoothed before the Liquid Rubber Waterproof Sealant membrane was applied.

FINAL MEMBRANE

COMPLETED PROJECT

CHALLENGE

Finding a waterproofing option that can handle many different contours and tight areas.

LIQUID RUBBER SOLUTION

Due to the nature of Liquid Rubber products being water-based, there are no harsh smells and dangerous application equipment needed.

Cracks were filled; drip edges, 90 degree angles and seams were sealed with peel and stick SeamTape, then Waterproof Sealant was used to coat the entire area.

3 heavy coats totaling approximately 12 sq. ft. / G were used to achieve an 80 mil (2mm) seamless, fully adhered membrane.

Products in the Liquid Rubber line include:

Waterproof Sealant, Basement Sealant, MetalSafe Sealant, Cool Foot Deck Coating, RV Roof Coating, Foundation Sealant, Textured Sealant, ToughDip, Seam Tape, Geo-Textile
