

Products: **RV Roof Coating & Seam Tape**

Application: **Repair Hail Damage**

Applicator: **DIY**

Location: **Calgary, AB**

Project size: **60 sq. ft.**

Completion date: **Aug 2014**

### PROJECT DESCRIPTION

A severe hail storm blew through the area damaging this Tent Trailer Roof leaving cracks and broken vents.

### CHALLENGE

Home owner did not want to replace the entire roof but only repair and freshen it up.

### LIQUID RUBBER SOLUTION

- Cleaned roof with soapy water and rinsed. Roughed up smooth areas and used Goof to remove adhesives, dirt, oils..... (Acetone also works well)
- Applied Liquid Rubber Seam Tape to damaged areas.
- Applied 3 heavy coats of Liquid Rubber RV Roof Coating by paint brush and standard roller to the entire roof. Total coverage worked out to 100 sq ft per coat. Allowed a couple hours between coats (dry to touch).

"I would certainly recommend this for people looking to save on hail claims. For \$200 I was basically able to save my roof in 1 day!"  
Ken from Calgary, AB

#### Products in the Liquid Rubber line include:

Waterproof Sealant, Basement Sealant, MetalSafe Sealant, Cool Foot Deck Coating, RV Roof Coating, Foundation Sealant, Textured Sealant, ToughDip, Seam Tape, Geo-Textile
