Video Meeting Kit  
for Heckler AV Wall  
H801

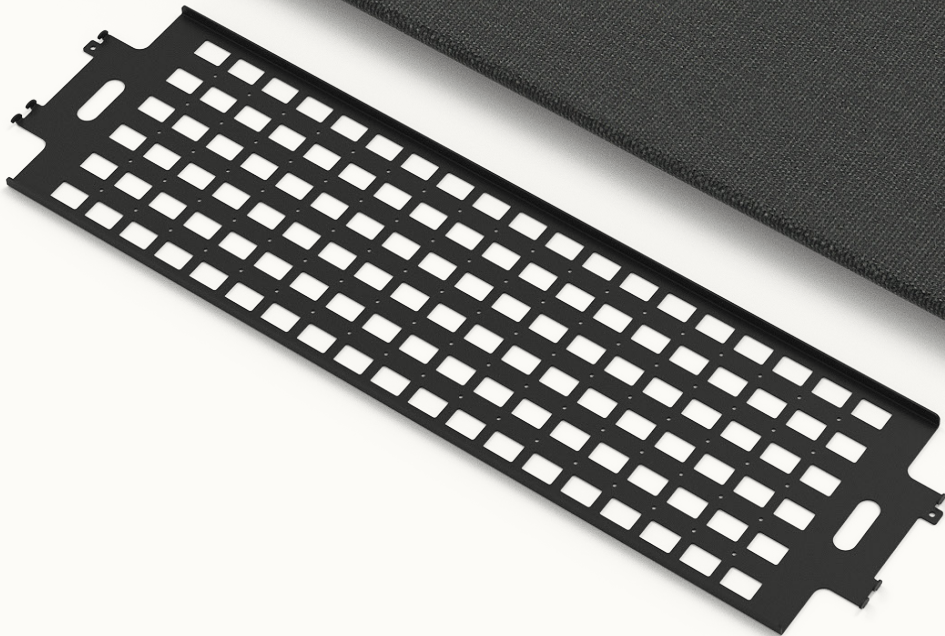

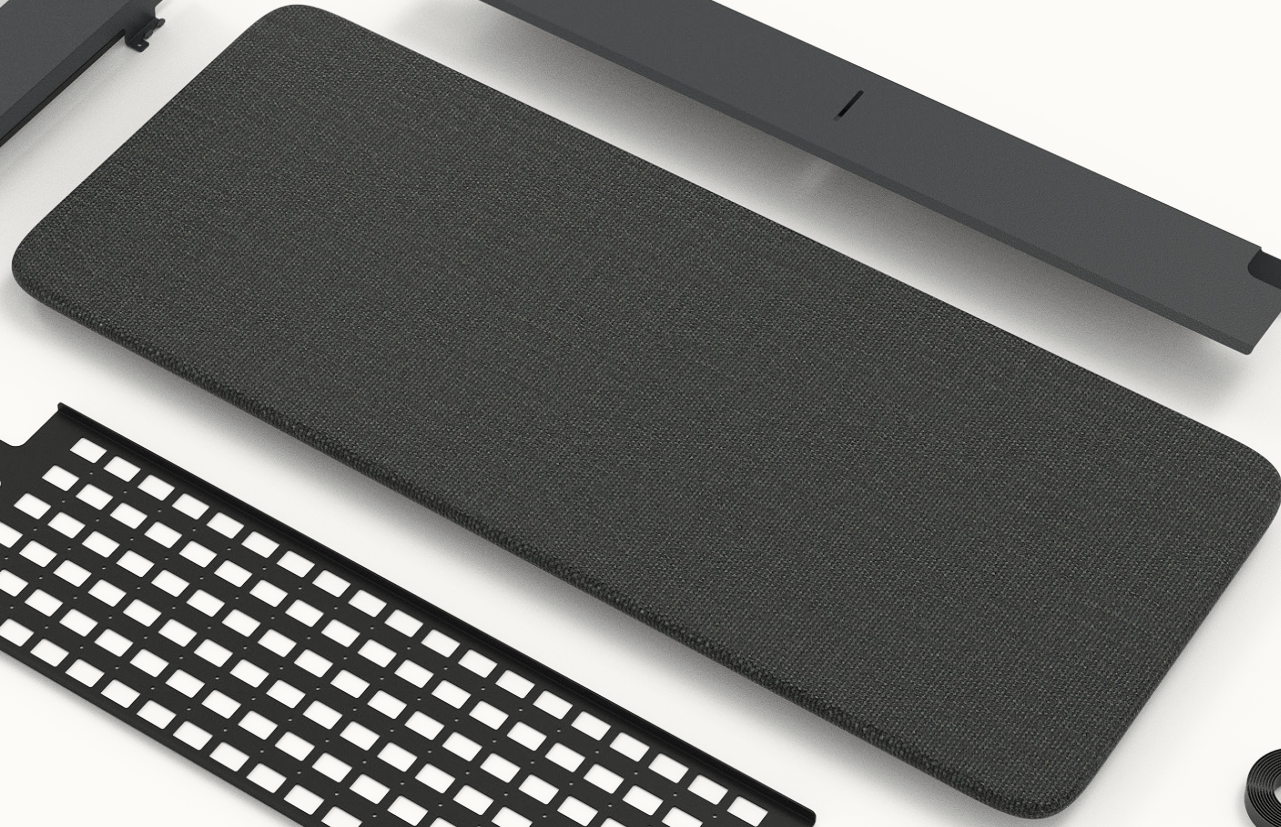

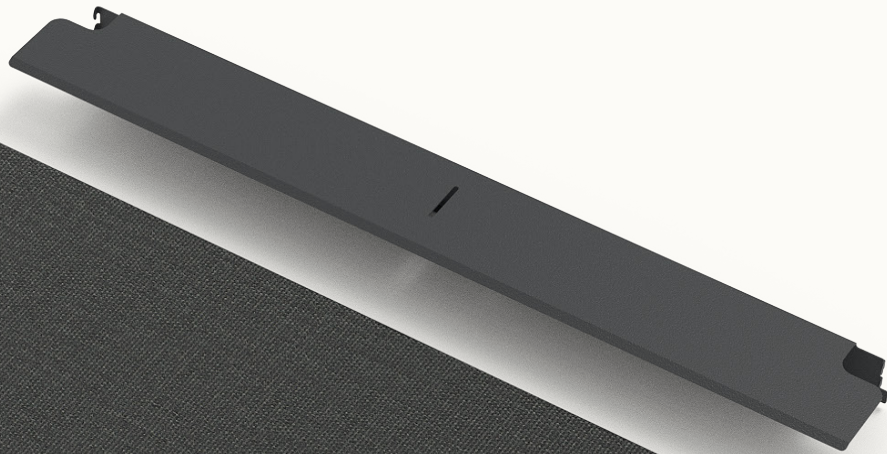

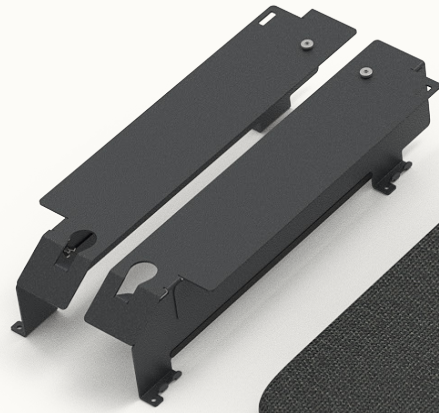

# Heckler

Create an ideal home for all your video meeting devices with Video Meeting Kit. This accessory for your Heckler AV Wall creates an attractive focal point in your meeting rooms that has the presence of modern furniture without occupying precious room space or floor space.

## Features

Slim-profile shelf for positioning your conference cameras at the perfect height.

Device panel enables pre-configuration of small components and cabling.

2RU total rack-mount component mounting. 1RU on each side.

Sculpted front panel, wrapped in premium Maharam fabric.

Designed to make use of, and visually obscure, pre-existing power and data wall outlets.

Easy cable routing to all components - no in-wall cable routing required.

Easy, tool-less installation.

Install Video Meeting Kit to Heckler AV Wall Structure at your preferred height.

Optionally deploy a small, hidden padlock to the front panel to restrict component access.

Unique front panel attachment system enables fast, tool-less access, installation, and removal.

Front panel rests open for convenient component maintenance.

Ships conveniently by small package shipping services.

Shelf features a camera-mounting slot to ensure your conferencing camera remains in place.
