

star HI X Connect Series

Intelligent printing for modern Cloud retail, logistics and hospitality printing

HI X Connect Interface for Star TSP654II, TSP743II, TSP847II & SP700

Take advantage of all the Cloud has to offer with the **TSP654II HI X Receipt Printer** or be ready to upgrade with the **HI X interface** for an easy, future-proof upgrade of Star's **TSP654II** with traditional interface or the **80/112mm label, ticket and receipt TSP743II, TSP847II and SP700** printers.

- **WiFi Ready** using a compatible, locally sourced USB WiFi dongle matching the customer's preference and budget
- **Dual Interface** USB/LAN
- **Easy User Firmware Upgrade** for more features coming, including future linking to AllReceipts, Star's New Digital Receipt Service with End User App & Cloud Analytics
- **CloudPRNT** internet connection through WiFi, LAN with remote document printing from your web server. Perfect for restaurant aggregation, warehousing etc.
- **WebPRNT** LAN platform independent HTML/JavaScript printing from web based applications included free-of-charge
- **Peripheral Ready** no PC required peripheral use including scanners with 2 USB host ports

ALL AVAILABLE USING...

- **Star's 300mm/second, Superfast printer** or upgrade your **TSP654II** with traditional interface when you are ready to go to the Cloud. **No need to replace the printer – just replace the interface at half the cost (available NOW)**
- **Star's Receipt, Label and Ticket printers** **TSP743II** or **TSP847II** (using up to 0.15mm thick media) can all use the new exciting **HI X interface** on 80/112mm wide tickets and labels or the **TSP654II Thermal** and **SP700 Matrix** in the kitchen (available end 2016)

Be Future-Proofed with the **TSP654II** – with or without the **HI X interface Connect** and be **RETAIL CLOUD READY!!**
