Heated Outdoor Furniture

## HELIOS LOUNGE

The Helios lounge is a piece of radiantly heated outdoor furniture, the first and only of its kind. Smooth like a river rock, the Helios warms your entire body with its efficient and comfortable design.

Imagine the feeling of relaxing in a hot tub without getting wet. Now picture the Helios on your deck, in your garden, on a rooftop, or après-ski. The Helios keeps you warm in all seasons, day or night.

Designed and made by hand in California.

### MATERIALS

Cast stone surface 1" thick with fully integrated colors. 250 lb with a powder-coated stainless steel base.

### POWER & CONTROLS

Plug-in ready. Adjustable temperature controls for energy-efficient radiant heating. Standard 120V power, 1500 watts, 12.5 amps
