

Ring Size Guide

To determine your ring size, print this page at full scale or 100%. Make sure the "Scale to fit" option is unchecked in the print dialogue box. To ensure this page has printed properly, use a ruler to measure one of the samples below. They should measure 2 inches or 20 millimeters respectively.

- 1. Choose a ring that you already own (or can borrow) that perfectly fits the finger on which you'll be wearing your new Lost Apostle ring.
- 2. Align your ring with the circle below that most closely matches in size. The inner edge of your ring should align with the outer edge of the circle.
- 3. If your ring appears to be between two sizes, we suggest you choose the larger size.

Please note that this ring size chart is for reference only. Lost Apostle can not be held liable for any errors that occur as a result of using this chart.
