

GLOSS NAIL BAR

When Sanda Weir's teenage daughter started to frequent nail salons, she ended up with brittle and broken nails, so Weir inspected product ingredients. What she found was a laundry list of potentially harmful chemicals, so she decided to create her own eco-friendly polish line. Weir launched GLOSS Naturals in December 2013, and her organic salon GLOSS Nail Bar just one year later.

"Our eco-chic nail spa offers fresh organic products in a setting where luxury meets wellness," says Weir of her Miami-based salon. "It is our mission to provide each client with a unique, luxurious sensory experience that is respectful to the wellbeing of the individual and of the environment."

GLOSS Naturals now includes more than 100 polishes, a body mist of 100% blended essential oils, body lotions in rosemary-mint and vanilla-tangerine, a sugar body polish with essential oils, foaming bath salts to help detoxify the body, natural soy nail polish remover, and soy-based candles. In addition, GLOSS Nail Bar offers massages, threading, waxing, facials, makeup, lash application, and several body services including a micro-needle anti-cellulite treatment, and an ultrasonic cavitation fat-reducing treatment.
