

# Wesco Boots Are Without Rival

There are two factors that set Wesco boots apart from all other boots: Wesco's are made from top quality, full grain leather—this adds to the hand-to-hand, and step-by step. It is in this 155-step process that we or do anything that could compromise the quality of our

the quality of materials we use and the details in our craftsmanship. comfort and longevity of the boots. Our bootmakers work as a team, have earned and maintained our reputation—we don't take shortcuts boots. See the full Wesco boot story at [www.wesco Boots.com](http://www.wesco Boots.com).

## A Wesco Boot

Rolled leather top facing

6 1/2 - 7 oz. full-grain leather

Solid brass studs mounted in grommets to prevent pulling out of leather

Full leather gusset to top of boot folded in three layers to provide complete shin protection

Full leather counter pocket with crush- and water-resistant Stytherm material in between

Specialized shoemaking clinching nails

Full leather heel base

Non-corrosive, double-ribbed, slightly arched steel shank for comfort and maximum support

8-8 1/2 iron full leather sweat-resistant insole (Approx. 3/16")

9-9 1/2 iron full leather midsole (Approx. 3/16")

Combined soling material 1 3/8" thick

All leather slip-in inserts

13 oz. (over 1/4") full leather vamp and leather lining provide double layer of protection

Hard toe (Steel or composite safety toes are options.)

\*Fully stitched through the outsole

## Industry Standard Boot

Rolled top facing using thinner, lesser quality leather

6-6 1/2 oz. full-grain leather

Studs not mounted in grommets

Partial leather gusset (does not go to top of boot) only provides partial protection

Full leather counter pocket with synthetic support

No nails for attaching soling material – just glue

Rubber sole

Non-corrosive steel shank

Thin urethane insole

Cork filler

Combined soling material 1" thick

Thin foam insert

6 1/2 oz. single leather vamp, cloth lining

Glued on outsole (uni-sole)

\*Our VoltFoe® electrical hazard boots are made with welt construction to meet new electrical industry standards.

The long wearing traction of VIBRAM® is simply unsurpassed—the soles and heels of Wesco boots are VIBRAM® unless otherwise specified.
