Section 4: First-Aid Measures

Eye: In case of eye contact, immediately irrigate with plenty of water for 15 minutes.

Skin: In case of skin contact wash affected areas of skin with soap and water.

Inhalation: If inhaled, move person to fresh air.

Ingestion: Rinse mouth with water.

Immediate medical attention:

Warning: It might be hazardous to the person providing aid to give mouth-to-mouth respiration, because the inhaled material is harmful. If breathing has stopped, perform artificial respiration. Use first

aid treatment according to the nature of the injury. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves.

Section 5: Firefighting Measures

Suitable Extinguishing Media: Use water spray, carbon dioxide or dry chemical to extinguish fires.

Fire Fighting Procedures: Use water to keep containers cool. Wear self-contained, positive pressure breathing apparatus.

Unusual Fire and Explosion Hazards: N/A

Combustion Products: Materials which on exposure under fire conditions would offer no hazard beyond that of ordinary combustible material.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures: Use personal protective equipment. Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc.

Methods and materials for containment and cleaning up: Absorb spilled material in a suitable absorbent (e.g. rag, dry sand, earth, sawdust). In case of large amount of spillage, contain a spill by bunding. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.

Section 7: Handling and Storage

Handling: Do not get in eyes, on skin or on clothing. Use good personal hygiene practices. Wash hands before eating, drinking, smoking. Remove contaminated clothing and clean before re-use.

Storage: Store in tightly closed containers in cool, dry, well-ventilated area away from heat, sources of ignition and incompatibles. Keep containers tightly closed and upright when not in use. Protect against physical damage.

Section 8: Exposure Controls/Personal Protection

Exposure Limits: Contains no substances with occupational exposure limit values.

Engineering Controls: Engineering controls are not usually necessary if good hygiene practices are followed. Before eating, drinking, or smoking, wash face and hands thoroughly.

Personal Protective Equipment:

Respiratory protection: Work outdoors or in a well-ventilated area. If in a confined area, use a MSHA/NIOSH approved respirator or equivalent.

Hand Protection: Wear protective gloves.

Eye Protection: Wear safety glasses.

Skin and Body Protection: Wear a lab coat.
