

PIG® Poly Deck with Pallet Jack Pockets

#PAK1020 - Holds 2 Drums • Use With Plastic & Steel Drums • 22 gal. Sump Capacity

No forklift required! Just slide your pallet jack right in to easily transfer drums on this drip-catching deck.

- Fork pockets are spaced to fit most pallet jacks; deck can be moved fully loaded with properly secured drums (straps not included)
- 2,000 lb. UDL capacity is strong enough to support two fully loaded steel or poly drums; PIG decks will never buckle or bow
- Low-profile 6.5"H design is easy to load or unload; pumps and funnels are easy to access
- 22-gallon sump catches leaks, drips and spills during drum transfers
- Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
- Textured grating adds traction and lifts out for easy sump access

Technical Information

Warnings & Restrictions:

Flammables Notice

If using this product with flammable liquids, please consider the regulations that apply to storage and handling of flammable liquids and the safety of this application, specifically flammable vapors, static discharge and heat sources. For further assistance, please call Technical Services.

Regulations and Compliance:

40 CFR 264.175 - Hazardous waste containment systems must be free of structural cracks or gaps, be designed to keep spilled liquids from remaining in contact with the container, prevent run-on and "have sufficient capacity to contain 10% of the volume of the containers, or the volume of the largest container, whichever is greater."

40 CFR 122.26 - When applying for a National Pollutant Discharge Elimination System (NPDES) permit, facilities must have a plan in place that describes actions, procedures, control techniques, management practices and equipment available to prevent illegal discharge of pollutants into waterways.

40 CFR 112.7 - SPCC planning requirements state that facilities subject to these regulations must have written plans in place discussing the products, countermeasures and procedures that are in place, or will be taken by the facility to prevent discharge of oil into waters of the United States.
