

## PIG® Blue Absorbent Sock

MA1097 1.5" x 29", Absorbs up to 22 oz. per sock, 50 socks

Our heaviest absorbent sock is filled with vermiculite to form a barrier and prevent spills from spreading.

- The heaviest sock we make features extra-dense construction to hug floors and stay in place while containing spills
- Fine-grade vermiculite filler quickly absorbs leaks, drips and spills; great for spill response or absorbing machine leaks
- Stitch-bonded, polypropylene skin resists bursting; reduces dust and holds in liquid, even when saturated
- Absorbs most common industrial liquids - oils, water, solvents, coolants and more
- Ideal for diking and damming liquids
- Can be air-dried for reuse when soaked with water
- Nobody knows more about socks than New Pig - we invented them!
- Small 1.5" diameter is great to fit into tight spaces to absorb machine leaks and for special application diking
