

PIG® Stat-Mat® Absorbent Pad

MAT215 Lightweight, 15" x 20", 200 pads

Clean up spilled fuels and solvents with the only pads proven to dissipate static.

- The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapors
- Stat-Mat Pads and Rolls pass NFPA 99 standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup
- Absorbs and retains oils and fuels - including acetone, benzene, gasoline, toluene, xylene, mineral spirits and jet fuels - but not water
- Lasts 2X longer than ordinary mats for fewer change-outs; Eight layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated
- Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup
- Highly absorbent, fine-fiber construction won't leave behind liquids or fiber residue
- Packaged in special static-dissipative bags to help reduce static charge buildup
- Floats to clean up spills on water
- White color tells you it's only for oils and fuels
- Pads are ideal for catching drips and soaking up spills
- Easy-tear perforations let you take only what you need, so you use less mat and save money
- Light-weight construction is economical for small tasks and cleanups
- Mats take on the properties of absorbed liquids
 - always take proper precautions when handling saturated absorbents

Safety Instructions Regarding Flammable Liquids for Flame Resistant Mats

Pig Absorbent Mats are flame resistant in their unused state, but take on the properties of flammable liquids they absorb. Always take proper precautions against potential ignition in handling and disposal of these mats if they have absorbed flammable liquids. For further assistance, please call Technical Services.
