

PIG® Oil-Only Lite-Dri® Loose Absorbent

PLP415 Absorbs Oils, Fuels, Other Oil-Based Liquids Only, Absorbs up to 3.5 gal., 1 bag

Recycled cellulose, silica-free loose absorbent for oils and fuels, NOT water, is easier to lift and lighter to carry than clay; plus it's 3x more absorbent.

- Recycled cellulose repels water while absorbing only oil-based liquids
- Absorbent begins to work the instant it comes in contact with liquid
- Ideal for indoors or outdoor oil spills on land
- A great choice for use in machine shops, automotive shops, spill kits, fluid storage areas and loading docks
