

## PIG® Absorb-&-Lock™ High-Visibility Water Absorbent Pad

WTR004 (10) 14" x 14" Pads, Leak-Prone, High-Traffic Areas, Absorbs & Retains High Volumes of Water

Place these super absorbent hi-viz pads on dry floors as a preventive measure to absorb leaks and drips in problem areas.

- Water absorbing pads can be left in place under leaky pipes, equipment, appliances or machinery
- Great for sewage and restroom backups and overflows
- Super Absorbent Polymer (SAP) filler swells on contact with water and expands to pull in large volumes of liquid quickly
- Expanded water spill pads create a barrier to help prevent further leaks and drips from escaping and spreading into walkways
- Absorbed water is "locked" inside; won't leach or run out when you pick up or dispose, even when fully saturated
- Pads (before water contact) are low-profile to fit tight spaces; unobtrusive design won't create trip hazards
- Leave pad down until fully saturated, then dispose
- Non-toxic and non-hazardous for easy disposal
- Bright colors and printed "Caution" symbol add safety
